Personal Statement

Computer Science professional with a passion for exploring the ever-evolving world of technology and innovation. Committed to continuous learning, embracing challenges, and seizing opportunities to develop new skills and expertise.

Education

- **B.Tech in Computer Science and Engineering**
  MCKV Institute of Engineering, Howrah | 2023 – 2027
  CGPA: 9.66

- **Class 12 (Computer Science)**
  Aditya Academy Secondary, Kadambagachi | 2022 – 2023
  91%

- **Class 10 (Science)**
  Aditya Academy Secondary, Kadambagachi | 2020 – 2021
  90%

Projects

- **Web3-Vault** (https://github.com/arijitkroy/Web3-Vault)**:** Web3 Vault is a React and Vite-based browser dapp that encrypts files locally in the browser with AES-256-GCM.

- **Funcade** (https://github.com/arijitkroy/funcade): Funcade is a high-performance, real-time multiplayer arcade built with Next.js, React, Tailwind CSS, and Firebase.

- **LastCryy – Student Grievance Portal** (https://github.com/arijitkroy/Student-Grievance-Portal): LastCryy is a student grievance tracking portal that brings students, staff, and administrators onto a single platform. The goal is simple: file a concern in minutes, keep everyone in the loop, and close the loop with clear accountability.

- **MPlayer_Pro** (https://github.com/arijitkroy/MPlayer_Pro): MPlayer Pro is a fully-functional modern music streaming web application built using Next.js (Pages Router) with Firebase Authentication, Cloud Firestore, real-time playlists, favorites, Jamendo free music API streaming, mobile-first UI, and a Progressive Web App + Trusted Web Activity (TWA) Android app build completed.

- **Encryption Tool** (https://github.com/arijitkroy/Encryption-Tool): A secure client-side encryption tool built with Next.js and Tailwind CSS that allows you to encrypt and decrypt text and files using AES-GCM encryption.

- **Shorty - URL Shortener** (https://github.com/arijitkroy/Shorty): A robust, Firebase-backed URL shortening service built with Next.js. This project provides a scalable API for creating, managing, and retrieving shortened URLs.

- **SortCraft** (https://github.com/arijitkroy/sortcraft): SortCraft is a comprehensive Python package providing an extensive collection of sorting algorithms suitable for educational, research, and benchmarking purposes. All implementations are type-annotated, documented for clarity, and exposed through a clean flat API for easy import and exploration.

- **Job Application Assistant** (https://github.com/arijitkroy/JobAppBot): A Next.js application designed to streamline the job application process by compressing tasks using Scaledown API and generating high-quality responses (Summaries, Cover Letters, etc.) using Ollama.

- **Open-Source Contribution (**https://github.com/GauravKarakoti/SwapSmith/pull/41**):** Fixed explicit MetaMask connector to prevent Phantom interception

Key Skills

- **Programming Languages**: C, Python, Java, PHP, JavaScript
- **Frontend Frameworks**: React.js, Next.js
- **Backend**: Node.js, Flask
- **Databases**: Google Firebase, MongoDB, MySQL, OracleDB
- **Rapid Typing**: 80-90 WPM

Certifications

- PHP and MySQL at CMC Madhyamgram (Grade – B) | Completed: August 2023
- Programming in Java (Top 5%) – NPTEL | Completed: April 2024
- Introduction to Internet of Things (Top 5%) – NPTEL | Completed: October 2024
- NPTEL Domain Scholar in Programming | Completed: April 2025

Achievements

- Secured first place (Streamlit Track Winner) at the *Diversion 2k25 Hackathon*, conducted offline at the IEM Gurukul campus over a duration of 36 hours.
- Received three trophies at the *NPTEL STAR Award Felicitation Ceremony 2025*, held at the IIT KGP Research Park, Newtown.
- Achieved first place at the *MCKVIE Hackathon 2k25*, conducted offline at the college campus over a duration of 9 hours.

Hobbies & Interests

- Playing musical instruments (Melodica, Keyboard Piano)
- Participating in Capture the Flag contests
- Participating in Hackathons
- Competitive Programming
- Video gaming
- Photography
- Picture / Video Editing
- Content Creation in YouTube
